RTW, Inc. Reports Third Quarter Financial Results

--

MINNEAPOLIS, MN – October 26, 2007 -- RTW, Inc. (Nasdaq: RTWI), a leading provider of products and services to manage insured and self-insured workers' compensation, disability and absence programs, today reported net income of \$1.0 million, or \$0.19 per diluted share for the third quarter ended September 30, 2007 compared to net income of \$818,000, or \$0.15 per diluted share for the second quarter of 2007 and \$951,000, or \$0.17 per diluted share for the third quarter of 2006.

"We are pleased with the 24.3 percent growth in net income from the second quarter of 2007 and the 6.9 percent growth over the same period last year," said Jeffrey B. Murphy, RTW's President and CEO. "We expect growth in net income to continue for the remainder of 2007."

Premiums earned increased to \$10.4 million in the third quarter of 2007 compared to \$10.1 million in the second quarter of 2007 but decreased from \$10.8 million for the same period in 2006. Premiums in force decreased to \$47.6 million at October 1, 2007 from \$48.4 million at July 1, 2007 and remained relatively flat compared to \$47.5 million on December 31, 2006.

"Overall, I am very pleased with the direction of the Company and satisfied with our results in the third quarter of 2007," said Mr. Murphy. "Premiums in force declined from the second quarter as we continued to maintain our market discipline and only wrote business where we believe we can make a profit. I am optimistic about our insurance growth prospects over the next year as we focus on writing small accounts and association business where we believe rates are less volatile."

Service revenue earned during the third quarter of 2007 was \$1.2 million, consistent with the second quarter but down from \$1.4 million in the third quarter of 2006. Service revenue from the Minnesota Assigned Risk Plan (ARP) declined 15.5 percent from the second quarter of 2007 and 28.5 percent compared to the third quarter of 2006. Non-ARP service revenue increased during those periods 14.5 percent and 5.9 percent, respectively.

"Due to the soft insurance market, participants continue to be attracted to leave the ARP by standard market insurers resulting in a decline in ARP premiums and a resulting decline in service revenue to us," said Murphy. "We are pleased with the growth in non-ARP service revenue and believe that growth reflects our efforts and commitment

to the service business. As previously reported, we restructured our Absentia sales and marketing team late in the second quarter, adjusted our process to reflect what we learned, and fine-tuned our sales approach to improve service revenue. We believe we are on the right track. Additionally:

- We have expanded our reach and are now able to deliver TPA services in 50 states; and
- We are providing services to customers with operations in over 35 states.

We are committed to growing service revenue and remain excited about the future prospects of the service business.”

Other Three and Nine Month Result Information

Premiums earned decreased 6.7 percent to \$30.5 million for the nine months ended September 30, 2007 compared to \$32.7 million for the same period in 2006.

Total revenue decreased to \$13.0 million for the quarter ended September 30, 2007 compared to \$13.6 million for the same period in 2006, and decreased to \$38.4 million for the nine months ended September 30, 2007 from \$41.4 million for the same period in 2006. For the quarter ended September 30, 2007, total revenue included investment income of \$1.4 million compared to \$1.3 million for the same period in 2006. For the nine months ended September 30, 2007, total revenue included investment income of \$4.1 million compared to investment income of \$4.0 million for the same period in 2006.

The company continued to demonstrate its ability to manage and close claims. In the third quarter and for nine months ended September 30, 2007, RTW reduced unpaid claim and claim settlement expenses for 2006 and prior years by \$550,000 and \$1.6 million, respectively, and recorded corresponding pre-tax decreases to claim and claim settlement expenses reflecting this improvement. We recorded no development in the third quarter of 2006 and recorded a \$1.6 million reduction through the first nine months of 2006. These results reflect our focus and commitment to continually improve our ability to affect outcomes for open claims from prior accident years.

Merger with Rockhill Holding Company

As we announced on September 21, 2007, Rockhill Holding Company (Rockhill) and RTW, entered into a definitive merger agreement under which Rockhill will acquire all outstanding shares of RTW stock for \$12.45 per share in cash, in a transaction valued at approximately \$67.6 million. The proposed transaction has been unanimously approved by the Boards of Directors of both companies and is subject to customary closing conditions, regulatory reviews and approvals and approval by the shareholders of RTW. The transaction is not subject to financing conditions and is expected to close on or before December 31, 2007. After the merger, RTW will continue to operate as a separate wholly-owned subsidiary of Rockhill.

In conjunction with obtaining shareholder approval of the merger, RTW has established November 6, 2007 as the

record date for voting at a special meeting of shareholders. RTW has not yet established the date of the special meeting.

Important Merger Information

In connection with the proposed merger with Rockhill Holding Company, RTW filed a preliminary proxy statement with the SEC on October 22, 2007 and will file and mail a definitive proxy statement in connection with the RTW special meeting of shareholders held to approve the merger with Rockhill. Shareholders and investors are advised to read the proxy statement because it will contain important information about the merger and RTW. Other Events

In June and July 2007, the company decreased its employee count and reduced other operating expenses in an effort to improve profitability. RTW expects that these reductions will favorably affect operations for the foreseeable future.

In August 2007, RTW made two separate announcements:

- First, RTW announced that it had partnered with Med James, Inc. (Med James) to provide worker's compensation coverage through RTW's wholly-owned insurance subsidiaries to select supermarkets and grocery stores represented by Med James. Under the program, RTW is providing workers' compensation insurance, along with its proprietary claims management products and services, ID15[®] and RTW Solution[®], to supermarkets and grocery stores in six Midwest states with potential growth into

additional states in the future. To date, the company has written premiums totaling over \$500,000 under this program.

- Secondly, RTW announced that it added RTW SelectRiteSM, an electronic pre-employment screening solution that enables employers to identify risks in employee candidates prior to hiring them, particularly employees who would have a high probability of being absent from work. The tool provides immediate feedback to employers and has demonstrated the ability to reduce an employer's workers' compensation costs.

Conference Call Information

RTW will not hold a conference call for the third quarter of 2007 given the pending merger with Rockhill.
